Chapter 1: Introduction

1.1 Problem Definition

Our website flower premium florist will provide facility to sold the items of fresh flower for decoration ,for collection,for occasion through online.

1.2 Project Purpose

The purpose of our website, Flower Premium Florist is to offer a convenient and accessible platform for customers to purchase items of fresh flower (Bouquet,decor) online for a variety of purposes, including home or event decoration, personal collection and special occasions like Weddings, birthdays And anniversaries. The website provide a seamless shopping experience, allowing customers to browse a wide selection of items of fresh flower, make online purchases, and arrange for delivery.

1.3 Project Scope

our website is limited for only one city. we enhance our branch,service in future.

Chapter 2: Overall Description

2.1 Product Perspective/Environment Description

The product is an Online flower shop designed to provide customers with a Seamless and user friendly platform for purchasing floral arrangements and related products .The website will operate in the growing e-commerce sector, catering to individuals and businesses seeking items of fresh flower for various occasions such as weddings, birthday and different events.

Overall, the online flower shop aims to create a convenient, reliable, and enjoyable shopping experience for customers, positioning itself as a go to destination for floral needs.

2.1.1 Hardware Interface/ Hardware Specification

Processor : i5

Clock speed : 5200MHz

RAM : 16GB

2.1.2 Software Interface/ Software Specification

Technology used :

Frontend : HTML

Backend : MYSQL, PHP

Scripting language : Javascript,
Css

Other tools :

Netbeans

Phpmyadmin

Chapter 3: System Specific Requirements

3.1 Functional Requirements

Login

Requirement No.	Description	Comment
FR1	Admin ,customer and delivery boy will be able to login into the system using their Username and Password.	Log in page
FR2	If a customer forget the password, then OTP is sent through the mail for the user's verification and user can generate new password.	Forget Password Page
FR3	User can also change the password.	Change password page

Registration

Requirement No.	Description	Comment
FR1	Customers will be able to register themselves.	Registration page of customer
FR2	Admin will be able to register delivery boy.	Registration page of delivery boy

Manage Items

Requirement No.	Description	Comment
FR1	Admin will be able to manage items. ● Add category wise , color wise and type wise new item. ● Update the item. ● Remove the item. ● Admin will be able to change the status (available or not) of product.	Product page
FR2	Admin will be able to search and view the items (bouquet, flowers or decore).	
FR3	Admin will be able to view stock of item.	Stock Menu

Manage Staff and Provider

Requirement No.	Description	Comment
FR1	Admin will be able to manage staff. ● Add staff. ● Remove staff. ● Update staff.	Staff manage page
FR2	Admin will be also able to maintain(add ,edit ,delete) the provider detail.	Provider manage page
FR3	Admin will be able to view the detail of staff and provider.	Provider/Staff view page

Provide Option

Requirement No.	Description	Comment
FR1	When customer or viewer select the Item ,then system provide option of related items (bouquet , varmalaa).	Flower detail page

Buy the product

Requirement No.	Description	Comment
FR1	Customer will be able to add item in cart.	Cart page
FR2	Without registration viewer can not buy any item and can not add item into cart.	Order page, Cart page
FR3	Customer will be able to place the order.	Order page

Payment

Requirement No.	Description	Comment
FR1	Customer will be able to make payment through online or cash on delivery.	Payment Option
FR2	Admin will be able to view payment detail of customer.	Payment Menu of admin panel

Order Detail and Wishlist

Requirement No.	Description	Comment
FR1	Admin and customer will be able to view the order detail.	Show order option for customer Order Menu for admin
FR2	Customer will be able to add, view and remove the item in wishlist	Wishlist Option

Manage Delivery Boy

Requirement No.	Description	Comment
FR1	Admin will be able to manage delivery boy. ● Add delivery boy. ● Remove delivery boy. ● Update delivery boy.	Delivery Boy manage page
FR2	Delivery boys will not be able to change their profile detail.	
FR3	Admin will be able to assign pincode according area for order delivery to delivery boy.	Add/Edit page of

Dashboard for delivery Boy

Requirement No.	Description	Comment
FR1	Delivery boy will be able to watch the order information, Add Earning of cash on delivered order and edit the status of payment.	Dashboard
FR2	Delivery boy will be able to add the track of order(order is dispatched or received).	

Status of Order

Requirement No.	Description	Comment
FR1	Admin and customer will be able to watch the delivery status track(order is dispatched or received).	

Feedback

Requirement No.	Description	Comment
FR1	Customer will be able to give feedback.	Feedback page
FR2	Admin will be able to watch the feedback given by the customer.	Feedback Menu For admin

3.2 Non- Functional Requirements

Requirement No.	Description	Comment
NFR1	The website will be password protected. User will have to enter correct log in ID and password to access the application. Password will be stored in encrypted form for security. If User can login with wrong username or password after three wrong attempt it will lock user to login into system for few second.	Security
NFR2	24/7 system accessibility But it must have Internet connection available.	Availability

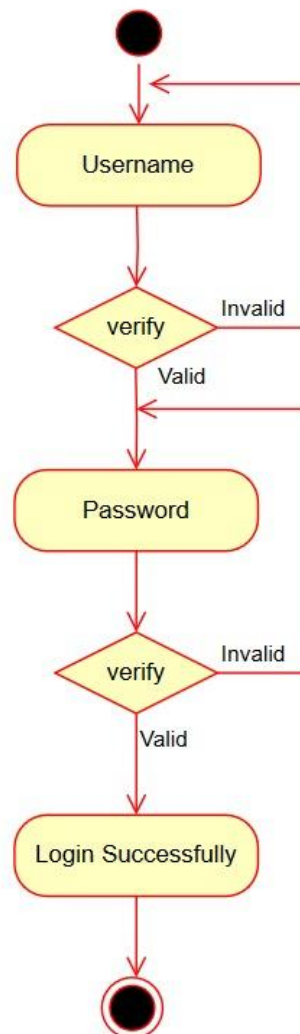

Chapter 4: System Analysis

4.1 Use Case Diagrams

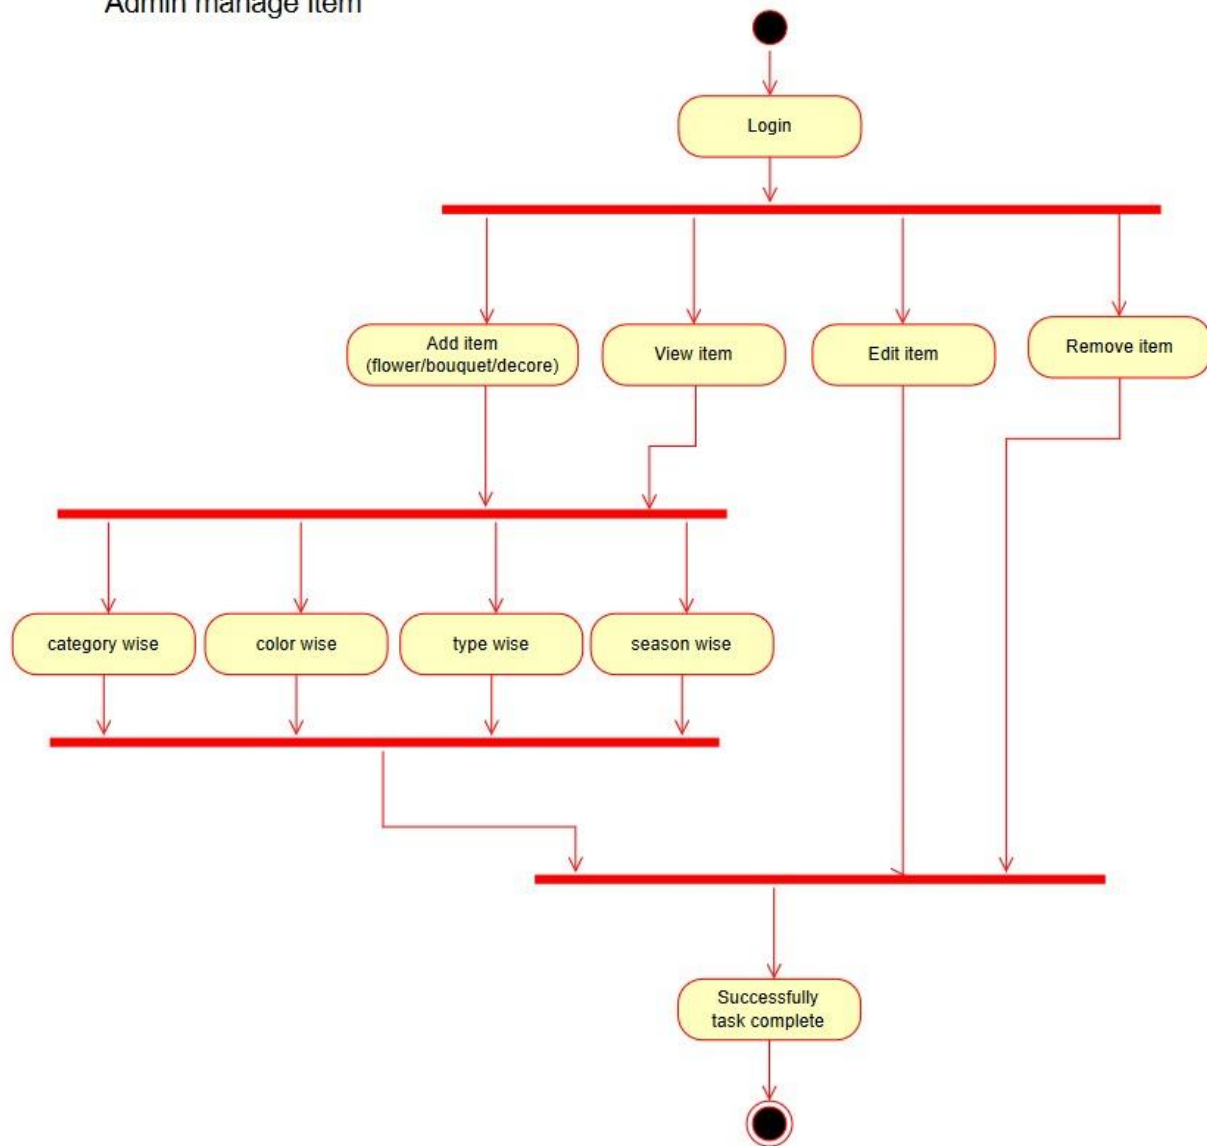

4.2 Activity Diagrams

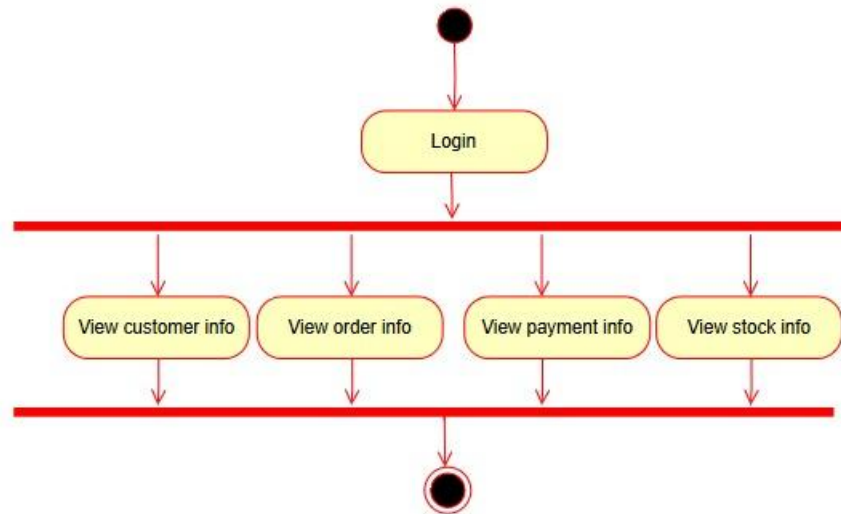

Login

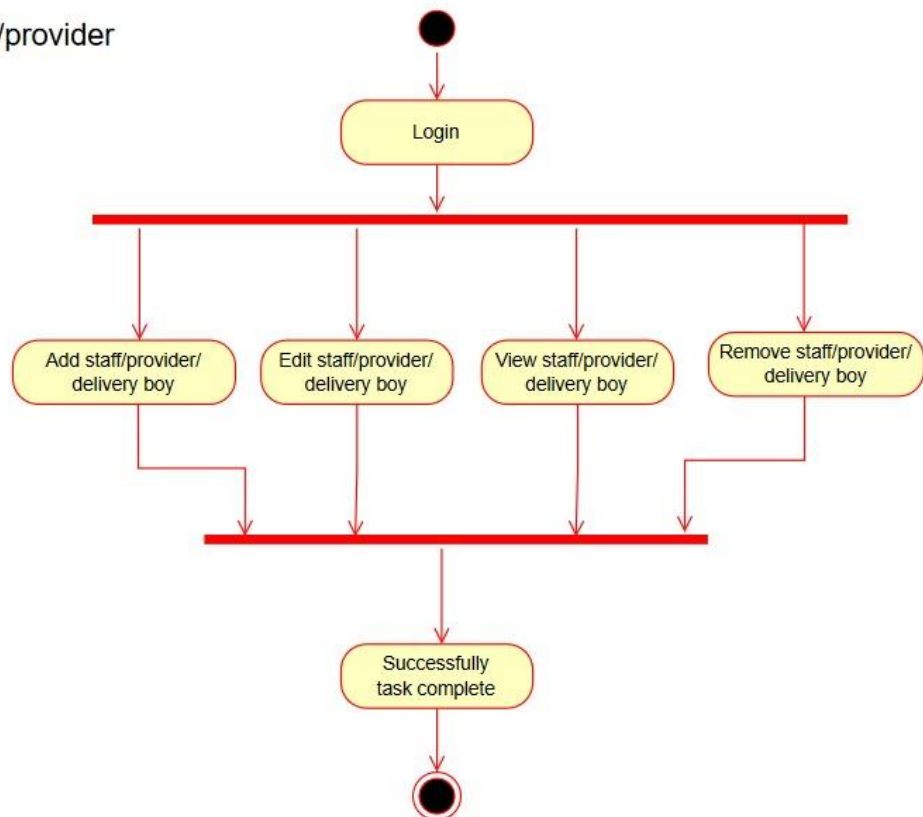

Admin manage item

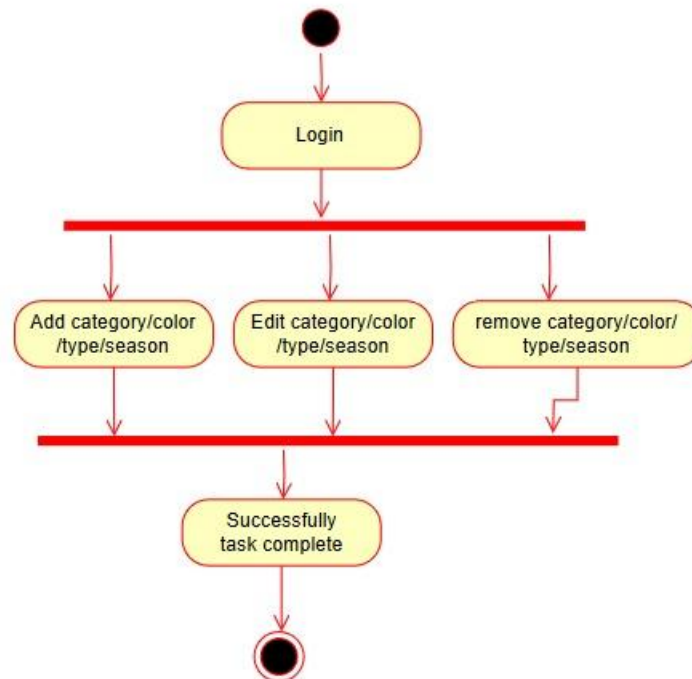

Admin view other detail

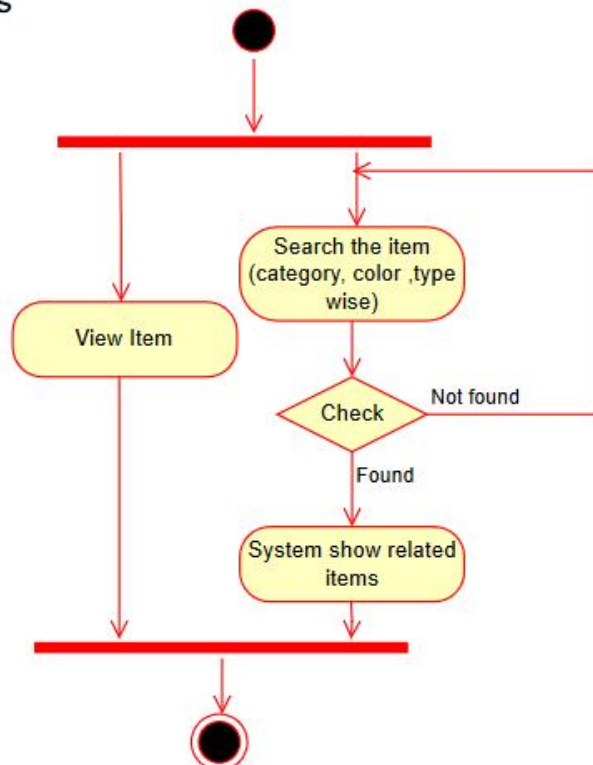

Admin manage staff/provider

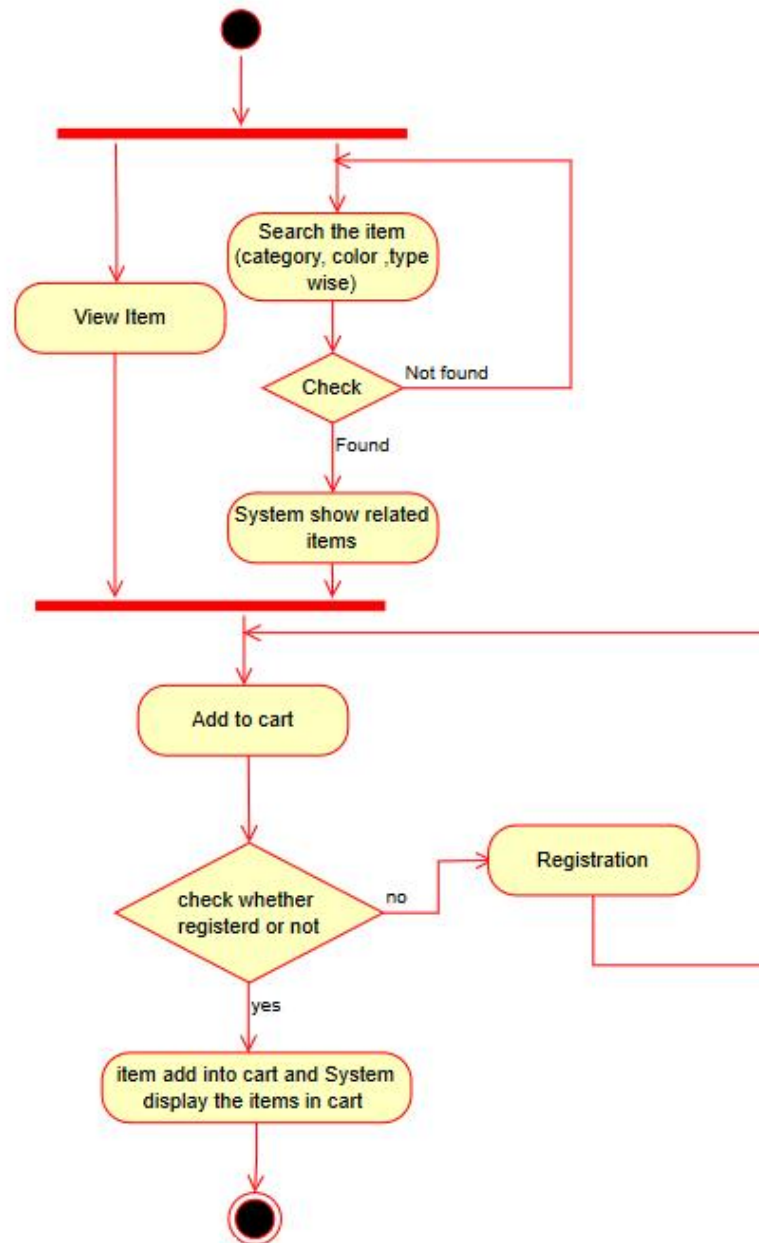

Admin manage item

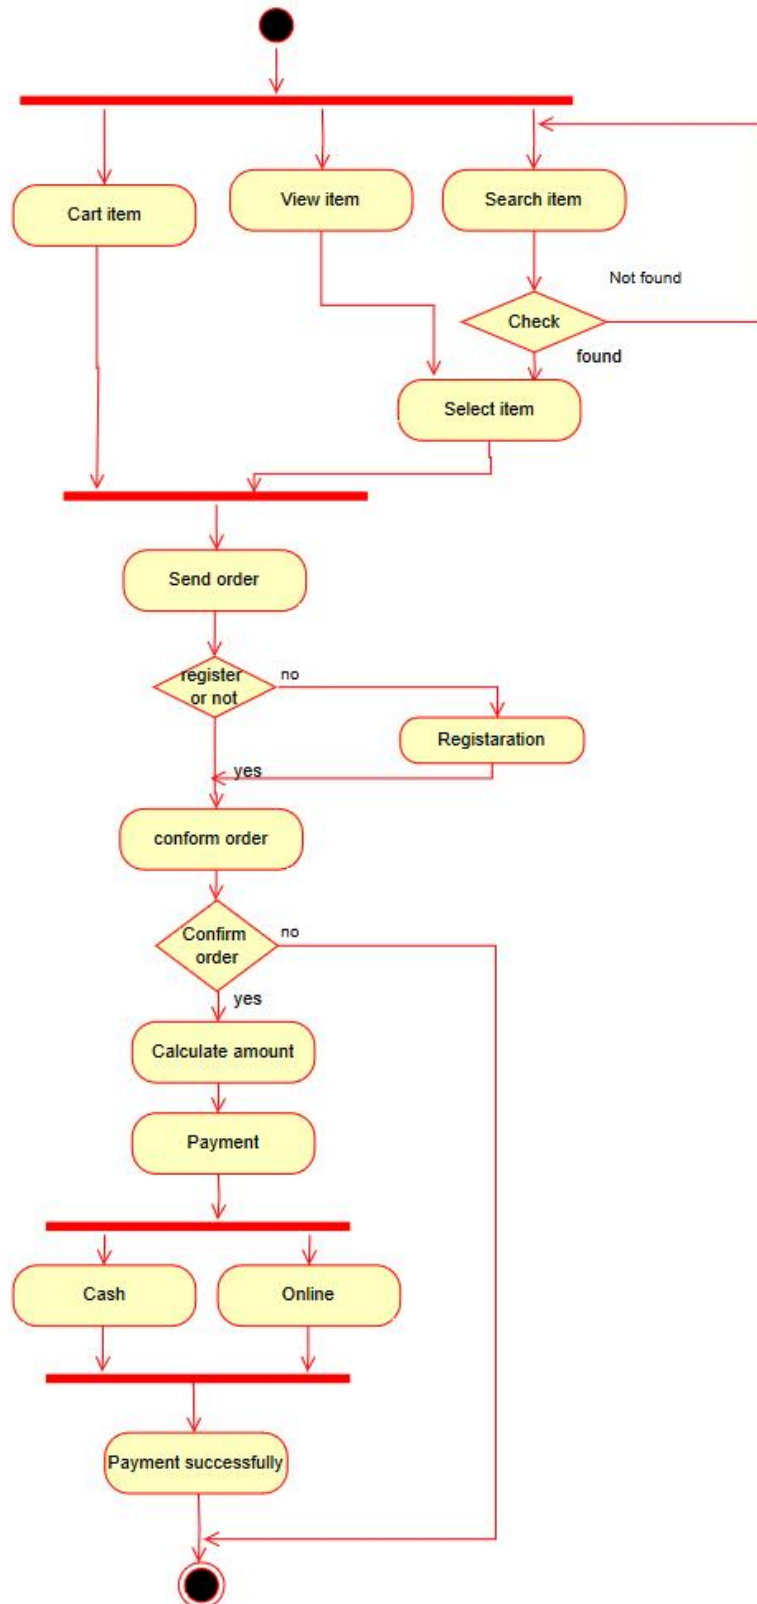

Visitor view and search items

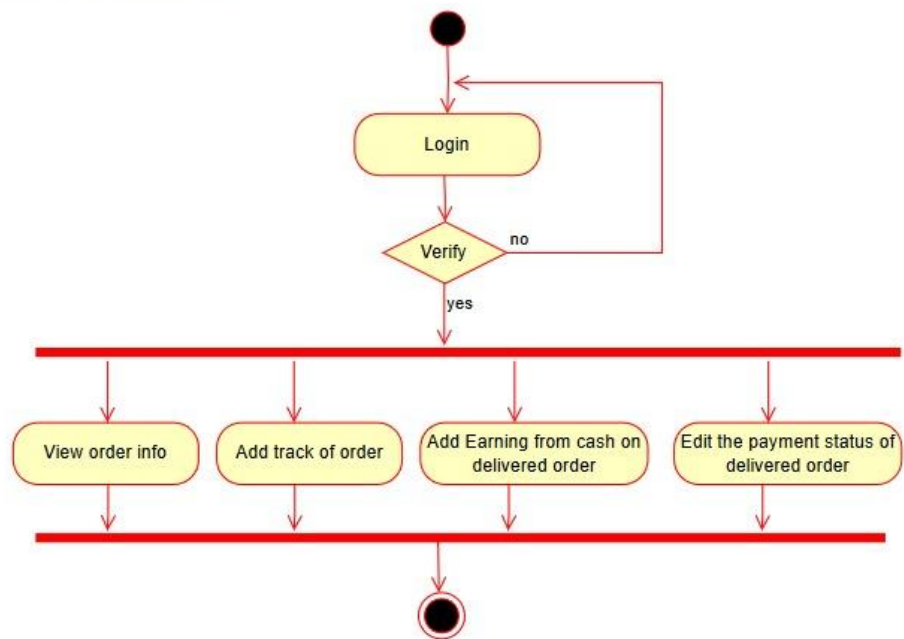

Item add into cart

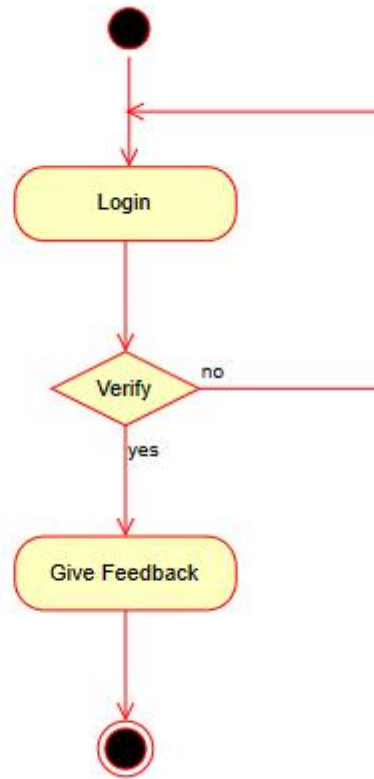

Order and Payment Activity

Delivery boy add track of order

tblcategory

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	ID	Integer		Primary key(A_I)	Id of category
2	NAME	Text		Not null(Unique)	Category name

tblflower

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	F_ID	Integer		Primary key(A_I)	Flower id
2	CATEGORY_ID	Integer		Foreign key	Category id
3	P_ID	Integer		Foreign key	Provider id
4	NAME	Text		Not null	Name of flower
5	COLOR_ID	Integer		Foreign key	Color id of flower
6	DESCRIPTION	Varchar	70	Not null	Detail of the flower
7	PRICE	Float		Not null	Price o flower
8	PHOTO	Varchar	400	Not null	Picture of flower
9	STOCK QUANTITY	Integer		Not null	Stock of flower
10	SEASON_ID	Integer		Foreign key	Season id
11	DATEADDED	Date		Not null	Date of adding flower
12	STATUS	Varchar	20	Not null	Available/not Available

tblitem

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	ITEM_ID	Integer		Primary key(A_I)	item id
2	CATEGORY_ID	Integer		Foreign key	Category id
3	NAME	Text		Not null	Name of item
4	DESCRIPTION	Varchar	50	Not null	item detail
5	PRICE	Float		Not null	Price of item
6	PHOTO	Varchar	400	Not null	Image of item
7	STOCKQUANTITY	Integer		Not null	Quantity of item
8	DATEADDED	Date		Not null	Date of adding item
9	TYPE_ID	Integer		Foreign key	Type(Occasion) id
10	STATUS	Varchar	20	Not null	Available/not Available

tblitem_info

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	S_ID	Integer		Primary key(A_I)	Serial number
2	ITEM_ID	Integer		Foreign key	item id
3	F_ID	Integer		Foreign key	Flower id

4	QUANTITY	Integer		Not null	Quantity of flower
---	----------	---------	--	----------	--------------------

tblprovider

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	P_ID	Integer		Primary key(A_I)	Provider id
2	NAME	Text		Not null	Full name
3	CNO	BIGINT		Unique	Mobile number
4	EMAIL_ID	Varchar	40	Unique	Email id
5	ADDRESS	Varchar	100	Not null	Address of provider
6	CITY	Varchar	20	Not null	City name
7	PINCODE	Integer	6	Not null	Pincode of area

tblorder

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	O_ID	Integer		Primary key(A_I)	Order id
2	P_ID	Integer		Foreign key	Product id
3	UNAME	Varchar	30	Foreign key	User name of customer
4	O_DATE	Date		Not null	Order date
5	QUANTITY	Integer		Not null	Product quantity
6	PRICE	Float		Not null	Price of the product
7	TOTAL_PRICE	Integer		Not null	Total amount

8	GST	Float		Not null	
9	DISCOUNT	Integer		Not null	
10	PAY_DATE	Date		Not null	Date of payment
11	STATUS	Varchar	20	Not null	Either payment done or pending
12	ORDER_TIME	Time		Not null	Time of the order delivered
13	DELIVERY_CHARGE	Integer		Not null	Charge for delivery
14	P_TYPE	Varchar	30	Not null	Online/cash on delivery
15	UNAME_DBOY	Varchar	30	Foreign key	Delivery boy username
16	ADDRESS	Varchar	200	Not null	Address when delivered the product
17	DELIVERY_DATE	Date		Not null	Delivery date
18	pincode	Varchar	50	Foreign key	Pincode for delivery
19	ORDER_STATUS	Varchar	20	Not null	Either pending or done

tblcart_item

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	P_ID	Integer		Primary key(A_I)	Product id
2	ITEM_ID	Integer		Foreign key	Item id
3	UNAME	Varchar	30	Foreign key	Customer id
4	QUANTITY	Integer		Not null	Quantity of item

tblfeedback

Sr.no	Field Name	Data Type	Size	Constraints	Description
1	F_ID	Integer		Primary key(A_I)	Feedback id

Chapter 6: System Implementation

6.1 Screenshots

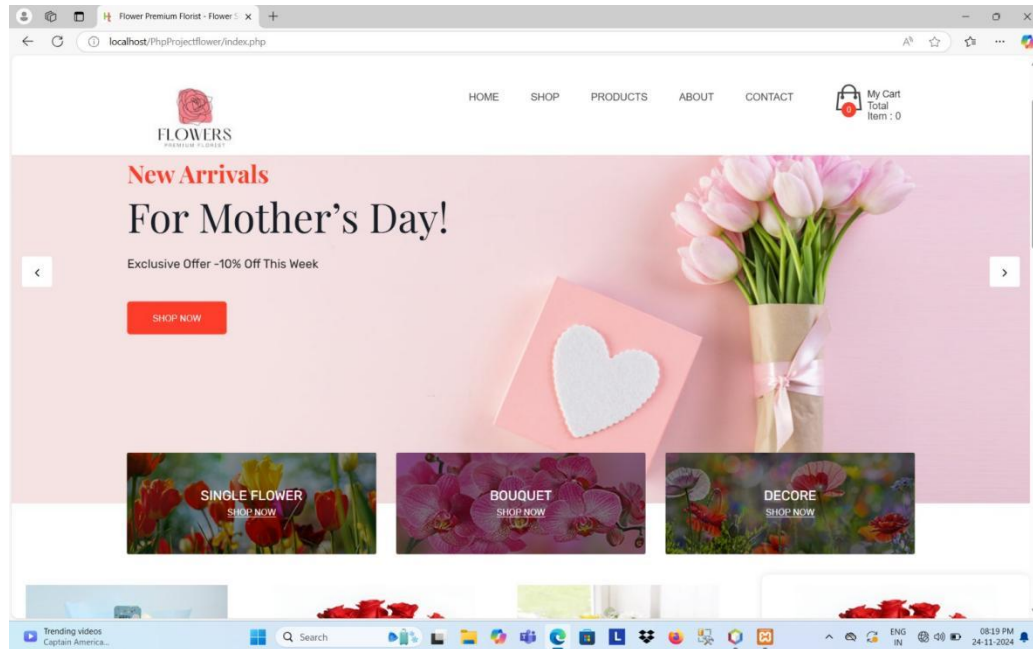

Figure 6.1.1 : Home page

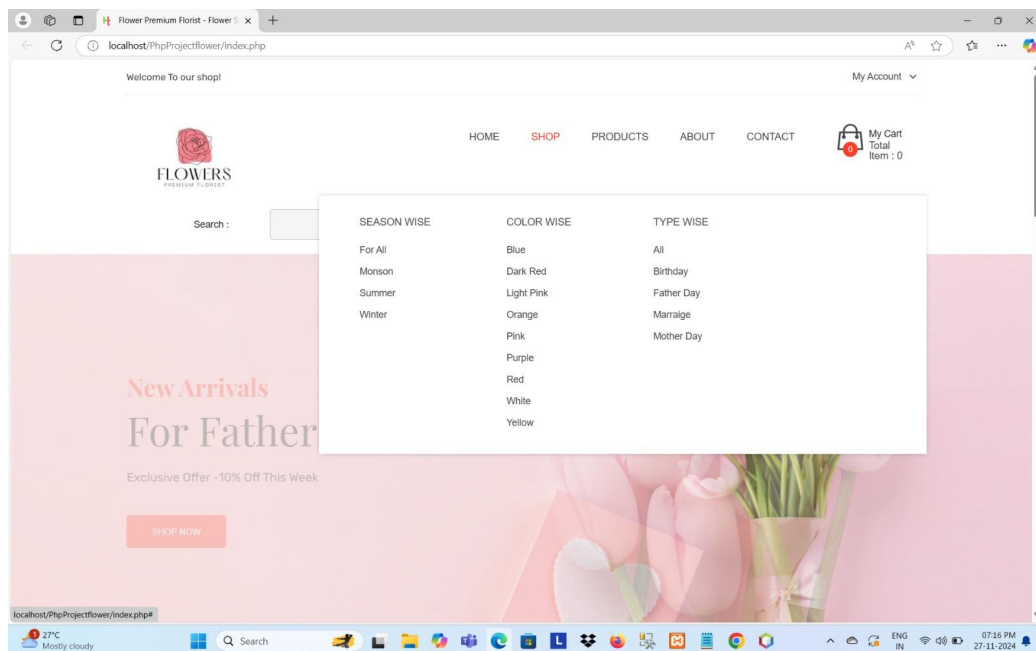

Figure 6.1.2 : Nav bar

The screenshot shows a web browser window with the URL `localhost/PhpProjectflower/register.php`. The page features a header with the 'FLOWERS PREMIUM FLORIST' logo, navigation links (HOME, SHOP, PRODUCTS, ABOUT, CONTACT), and a shopping cart icon showing 'My Cart Total Item : 0'. The main content area is titled 'Create Account' and contains a registration form with the following fields: 'User Name', 'First Name', 'Middle Name', 'Last Name', 'Date of Birth' (with a 'dd-mm-yyyy' placeholder and a calendar icon), and gender selection radio buttons for 'Male' and 'Female'. A taskbar at the bottom shows the system time as 08:24 PM on 24-11-2024.

Figure 6.1.3 : Registration

The screenshot shows the same web browser window with the URL `localhost/PhpProjectflower/login.php`. The page layout is consistent with the registration page, but the main content area is titled 'Login'. It features a search bar with the placeholder 'Search our store' and a price filter dropdown set to 'Select Price Range'. The login form includes 'Username:' and 'Password:' input fields, a green 'Log In' button, and links for 'Create Account' and 'Forgot your password?'. The taskbar at the bottom shows the system time as 08:19 PM on 24-11-2024.

Figure 6.1.4 : Login

The screenshot shows a web browser window with the URL `localhost/PhpProjectflower/conformpw.php`. The page features a navigation bar with links for HOME, SHOP, PRODUCTS, ABOUT, and CONTACT, along with a shopping cart icon showing 'My Cart Total Item : 0'. The main content area displays a 'Reset Your Password' form with the following fields and buttons:

- Email**: A text input field.
- send otp**: A button to send a one-time password.
- Enter otp**: A text input field for the received OTP.
- Verify otp**: A button to verify the OTP.
- Enter a new password**: A text input field for the new password.
- Conform password**: A text input field to confirm the new password.
- submit**: A button to submit the new password.
- Cancel**: A link to cancel the password reset process.

The browser's taskbar at the bottom shows the system time as 08:24 PM on 24-11-2024.

Figure 6.1.5 : Forget password

The screenshot shows a web browser window with the URL `localhost/PhpProjectflower/changeapa.php`. The page features a navigation bar with links for HOME, SHOP, PRODUCTS, ABOUT, and CONTACT, along with a shopping cart icon showing 'My Cart Total Item : 6'. The main content area displays a 'Change password' form with the following fields and buttons:

- Old Password:**: A text input field.
- New Password:**: A text input field.
- Confirm New Password:**: A text input field.
- Change paseword**: A button to change the password.

The browser's taskbar at the bottom shows the system time as 07:18 PM on 27-11-2024.

Figure 6.1.6 : Change password

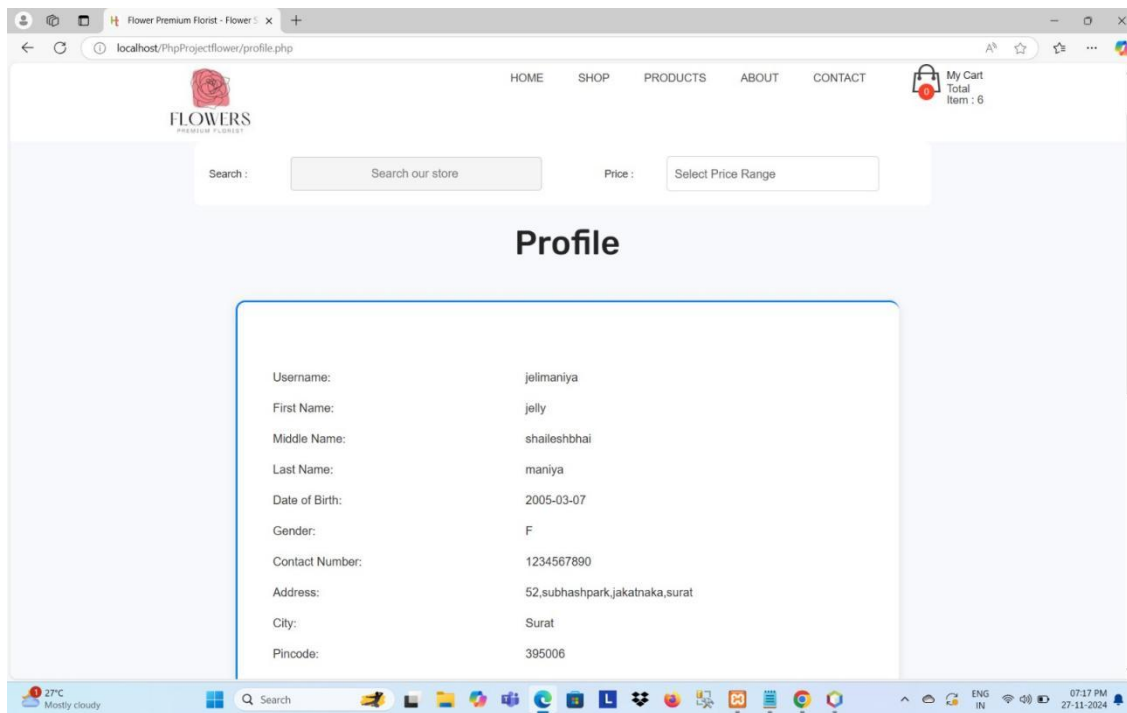

Figure 6.1.7 : Profile

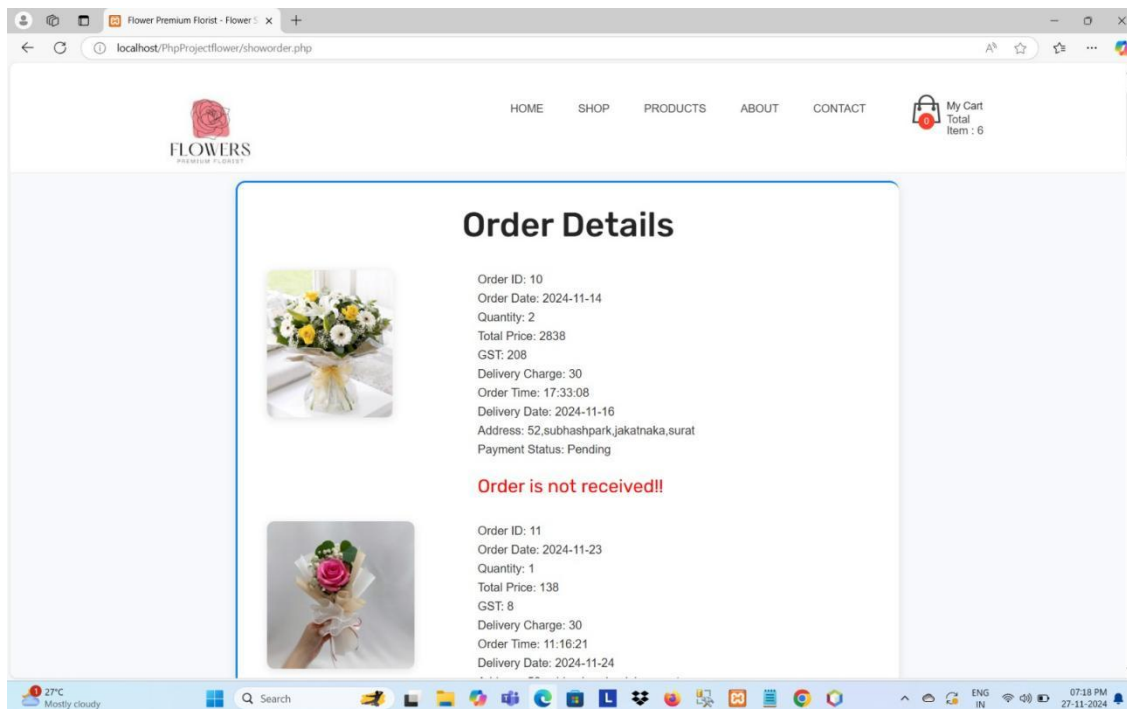

Figure 6.1.8 : Show Order detail

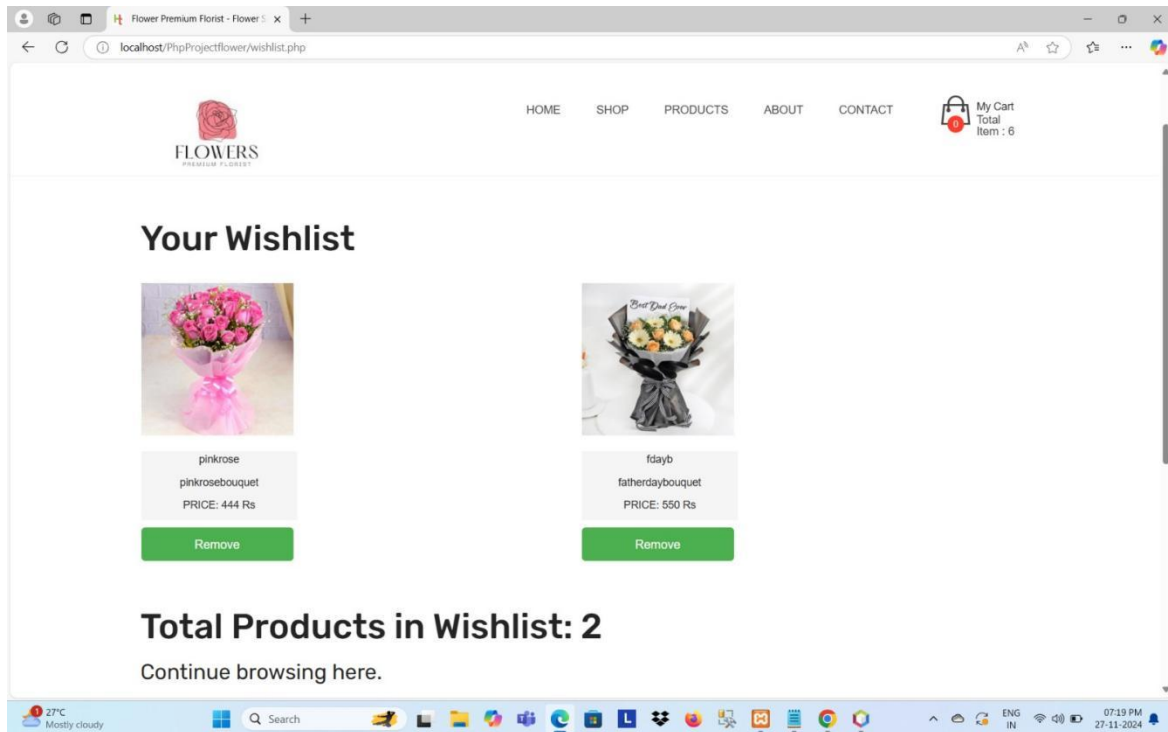

Figure 6.1.9 : Wishlist

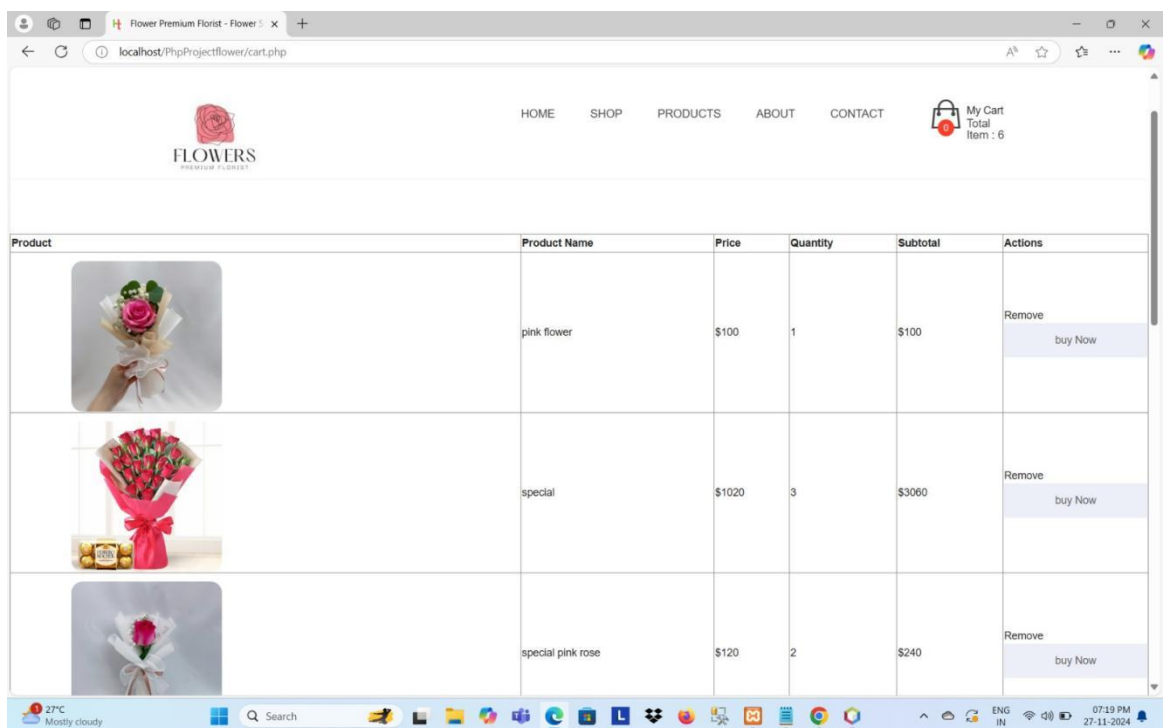

Figure 6.1.10 : Cart item

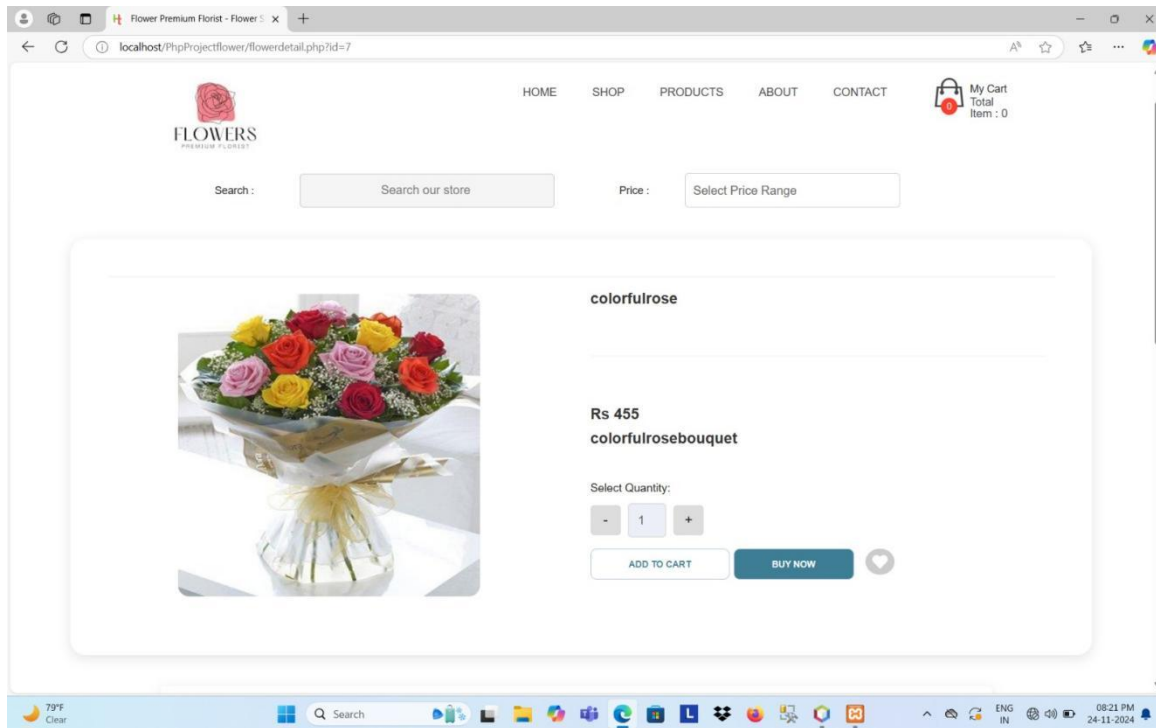

Figure 6.1.11 : Buy the product

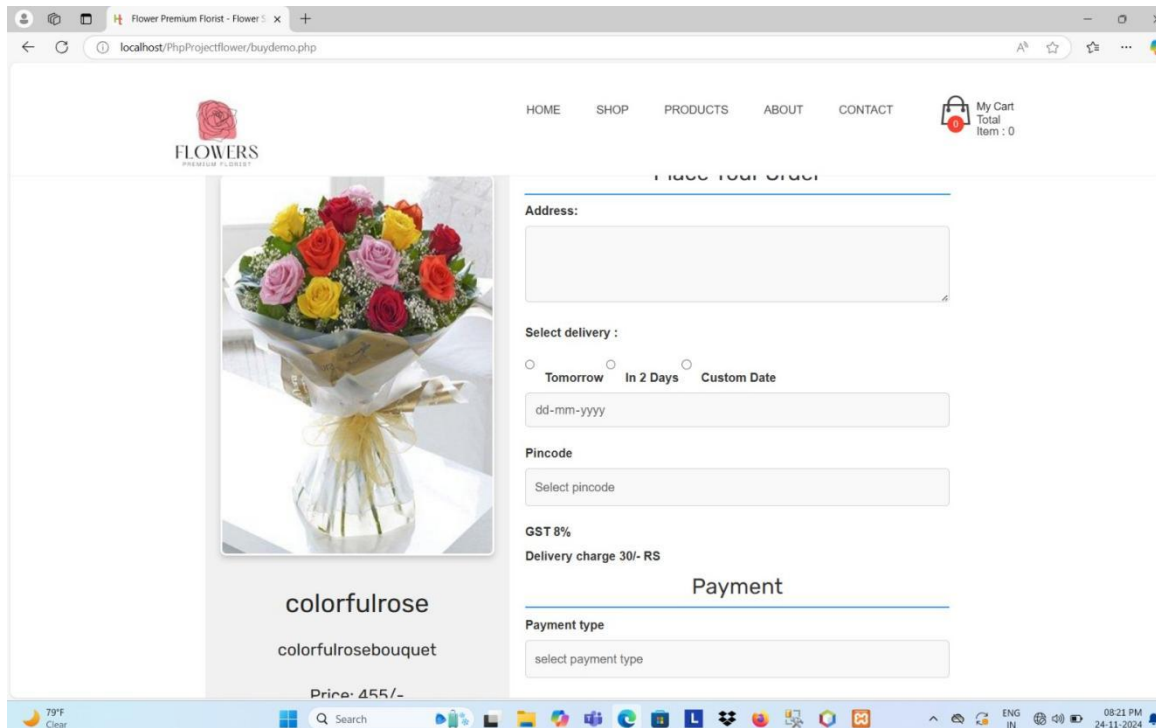

Figure 6.1.12 : Order place

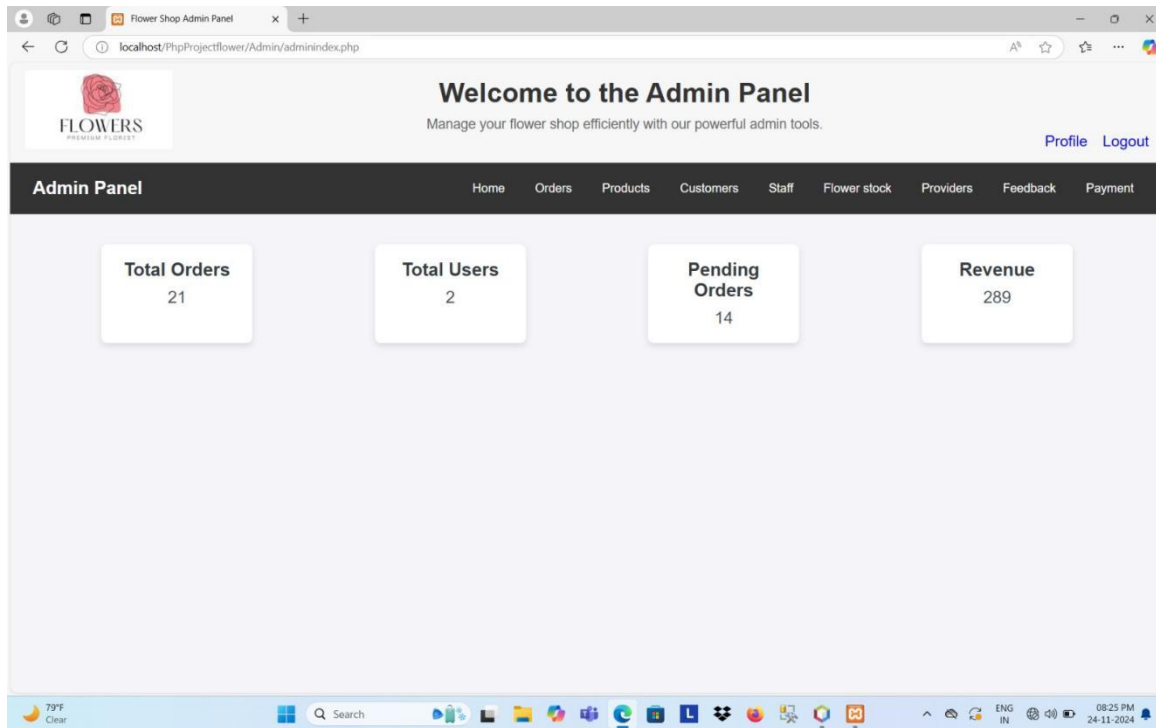

Figure 6.1.13 : Admin Home page

The screenshot shows the 'Order Detail' page of the 'Flower Shop Admin Panel'. The page features a navigation bar with links: Home, Orders, Products, Customers, Staff, Flower stock, Providers, Feedback, and Payment. Below the navigation bar, there is a table of pending orders. The table has 12 columns: USERNAME, Order Date, Item Quantity, Price, Total price, GST, Discount, Payment Date, Order Status, Order time, Payment type, and Deliveryboy name. The table contains 15 rows of data.
